PROFESSIONAL SUMMARY

Resourceful ICT support and software development professional with 2+ years of experience resolving hardware/software issues, developing backend solutions, and implementing automation systems. Skilled in Python, Java, C, and IT support operations with hands-on experience in REST APIs, networking, helpdesk support, and cloud-based tools like Google Workspace. Proven ability to reduce response times, automate workflows, and improve system efficiency in NGO and enterprise environments.

CORE SKILLS

- **Programming Languages:** Python, Java, Kotlin, JavaScript, C, PHP, Perl
 - **Web Development:** HTML, CSS, JavaScript, PHP, Bootstrap
 - **Frameworks/Tools:** Flask, Spring Boot, FastAPI, Android SDK, Firebase
 - **Databases:** MySQL, PostgreSQL, SQLite, MongoDB
 - **DevOps & Version Control:** Git, GitHub, Trello, Docker (basic)
 - **IT Support & Infrastructure:** Windows OS, System Troubleshooting, Google Workspace, Printer & Network Setup, Asset Inventory
 - **Other Tools:** RESTful APIs, Postman, Pytest, JIRA, Firebase, CI/CD basics
-

PROFESSIONAL EXPERIENCE

Software Developer

Taransvar NGO | Remote (Norway)
Aug 2024 – Present

- Developed and deployed a modular firewall tool using Python, C, and Perl, improving data protection for 3+ NGO partners.
- Designed REST APIs and backend services using Flask and PHP to automate internal workflows.

- Built internal dashboards using HTML, CSS, and JavaScript to visualize system metrics.
- Reduced system downtime by 40% through codebase refactoring and test automation.
- Collaborated across teams using Agile Scrum with Git, Trello, and GitHub.

ICT Trainee

Kenya Forestry Research Institute (KEFRI), Nairobi

May 2023 – Aug 2023

- Delivered Tier 1 & 2 helpdesk support to 50+ staff, resolving hardware/software/network issues with a 90% resolution rate.
- Onboarded new users by setting up devices and accounts, including Google Workspace configuration.
- Maintained IT asset inventory and updated internal documentation for troubleshooting procedures.
- Assisted with data migration projects using MySQL and Microsoft Excel.

Volunteer Android Developer

Wanawake Kwa Wanawake, Nairobi

Apr 2023 – Aug 2024

- Developed an Android e-learning app using Kotlin and Firebase for over 500 students.
- Integrated secure user authentication and optimized database queries for performance.
- Conducted usability testing and improved app responsiveness by 30%.

PROJECT HIGHLIGHTS

- **Firewall Automation API:** Developed Python-Flask APIs to automate firewall rule updates and trigger alerts.
 - **Student Performance Bot:** Built a prototype automation bot that flagged academic risks using data rules.
 - **Mobile Learning App:** Designed a mobile-first Android application for e-learning access in underprivileged communities.
-

EDUCATION

BSc. in Information Technology

Dedan Kimathi University of Technology

- Key Modules: Software Engineering, Database Systems, Networking, Object-Oriented Programming
-

CERTIFICATIONS & TRAINING

- Google IT Support Certificate (*In Progress*)
 - Aiwozo Developer Certification (*Planned*)
 - ALX Africa Virtual Assistant Program (*Expected Nov 2024*)
 - FastAPI for Python APIs – Udemy (*2024*)
-

PROFESSIONAL AFFILIATIONS

- Member – Python Nairobi Community
 - Member – Google Developers Group Nairobi
 - GitHub Developer Program
-

LANGUAGES

- English: Fluent
 - Swahili: Native
